How Fund Use Addresses Market Conditions:

Citywide, extremely low, very low and low-income residents accounted for 21,504 households in 2000. According to the US Census, over half the residents in half of the City&rsquos census tracts earned less than 80 percent of the area median income. These target areas, based on Census 2000 data contain census tract/block groups that have a concentration of low-to-moderate income households. This means more than 50% of the households have incomes at or below 80% of the area median income. The census tracts with low-to-moderate income concentration include 39.07, 42.02, 44.02, 39.01, 39.05, 45.00, and 44.01. Also, in 2000, two-thirds of the census tracts in Miami Beach were minority-majority neighborhoods (Census Tracts 39.05, 39.01, 39.07, 44.02, 42.02, 44.01, 43.00, and 41.01). All with the exception of two of the low income and racially concentrated census tract/block groups overlap.

Ensuring Continued Affordability:

The sub-recipient shall maintain the Premises as a thirty (30) year affordable residential rental apartment building for a term pursuant to an existing Restrictive Covenant. The affordability period shall be incorporated into the sub-recipient NSP3 agreement.

Definition of Blighted Structure:

A structure that exhibits objectively determinable signs of deterioration sufficient to constitute a threat to human health, safety, and public welfare.

Definition of Affordable Rents:

Rents shall be set according to HOME rental requirements and therefore the maximum HOME rents that can be charge are the lesser of: (1) the fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR Part 888.111; or (2) a rent that does not exceed 30 percent of the adjusted income of a family whose annual income equal 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit. The HOME rent limits provided by HUD will include average occupancy per unit and adjusted income assumptions. The rent must comply with the published HUD income limits per household size.

Housing Rehabilitation/New Construction Standards:

All gut rehabilitation of residential buildings up to three stories shall be designed to meet the standard for Energy Star Qualified Homes. Replacement of obsolete products and appliances shall meet Energy Star labeled products. Water efficient toilets, showers, and faucets, such as those with the WaterSense label, must be installed. Improvements shall mitigate the impact of disasters. Minimum construction standards shall comply with the Florida Building Code, latest edition. Rehabilitation shall also include compliance with Lead-based paint abatement.

Vicinity Hiring:

The City will work with the sub-recipient to the maximum extent possible to provide for the hiring of employees who reside in the vicinity of the project or contract with small businesses that are owned and operated by persons residing in the vicinity of the project.

Procedures for Preferences for Affordable Rental Dev.:

The sub-recipient shall advertise available affordable housing units. Applications will be required to show total income earned for the household. Beneficiaries will be selected on a lottery basis.
